

A call meeting of the Richmond Chamber of Commerce was held yesterday evening at 6 o'clock, President John R. Purcell in the chair. The first business in order was the consideration of the proposition to elect as honorary members prominent citizens of the State who are non-residents of Richmond. To carry into effect the suggestion in that direction made by Mr. E. G. Leigh, Jr., and the report upon that question made at the last quarterly meeting, the Secretary, Gustavus M. Milhiser, presented the following resolution was offered and adopted:

Resolved, That in order to extend the influence of the Chamber of Commerce in carrying out its plans for the commercial, industrial and general betterment of the people of the whole State a number of honorary members from each county of the State be chosen by the Board of Directors. That the honorary members be requested to furnish to the Secretary such information which will further the mutual interests of the Chamber and the people of the State, and that they be advised by the Secretary from time to time of any movements of the Chamber, and that, inasmuch as these committees may be interested.

THE RAILROAD CONVENTION.

Reports from the Committee on Inland Trade being next in order the following was submitted by the special committee composed of the members of the Committee on Inland Trade, Messrs. E. G. Leigh, Jr., R. Purcell, Judge George L. Christian, and Mr. Thomas N. Carter:

REICHMOND, VA., November 11, 1900.

The undersigned members of a special committee, to whom the matter of considering the railroad question in Virginia, as suggested in a report by Mr. E. G. Leigh, Jr., chairman of the committee, was referred, and who have given careful consideration to the same, and to the importance of the question, and also for the reason that it was proposed to elect prominent citizens from all parts of the State, and to the fact that, in order to do this, they consider further time necessary, both to fully study the situation and to formulate a plan of action, and to the end that there may be united action, and also, that they deem it inexpedient to hold a convention before the next meeting of the Legislature.

They therefore request that the matter be continued until the next meeting.

The report was received and committee granted the additional time required.

INCREASE THE COMMITTEES.

There being no other reports from standing committees, the special committee appointed to consider and report upon the expediency of increasing the number of standing committees submitted the following:

The undersigned members of the special committee appointed to consider and report upon the suggestion of Mr. H. W. Wood, of the Board of Trade, and pursuant to the call of the Chairman October 24th, and to have made to make the following recommendations:

Resolved, That the IX. of the Constitution be altered and amended to read: The President shall annually appoint from the following committees, viz., of one or both the following standing committees, consisting of six members each, except the Committee on Banks, Currency and Insurance, Business Enterprises and the Committee on Resident Members, which shall consist of twelve members each, and the Committee on Non-Resident Members, which shall consist of thirty members—viz., Committee on Commerce and Commercial Traffic, Committee on Inland Trade, Committee on Land and Trade, Committee on Overseas Trade, Committee on Mines, Committee on Agriculture and Immigration, Committee on Railroads, and the Committee on Information and Statistics, Committee on Advertising and Publicity, Committee on Colonization, Business Enterprises, Committee on Legislation, Committee on Streets, Roads, and Parks, Committee on the Public Library and State Exposition, Committee on Resident Members, Committee on Non-Resident Members. All of these committees, otherwise referred, all appropriate matters shall be referred and reported on before final action is taken.

It will be observed that the above list includes the Committee on Non-Resident Members as recommended by the suggestion of Mr. E. G. Leigh, Jr., the enlargement of the Committee on Business Enterprises from six to twelve members, and the Committee on Resident Members from six to twelve members. The size of the other committees they do not consider it expedient to increase, but, as suggested, to the present number of committees will bring into active contact with the work of the Chamber the additional members of the organization.

SPECIAL SUBJECTS TO CONSIDER.

They further recommend the appointment of special committees to consider and report upon the following subjects:

1st. The importance of the city having an inspector of buildings.

2d. The importance of the city having a map of the Richmond and Chesapeake railroad.

3d. The best means of encouraging, and if possible, securing, the establishment of a school of technology at Richmond.

In conclusion, they suggest that this resolution be referred to the standing committees of the Chamber at the earliest convenient date, and that if the recommendations are adopted, the members of these committees, as far as practicable, be chosen from the roll of new members and old members not now on committees.

[Signed]—H. W. Wood, S. D. Crenshaw, Rosewell Page, John W. Flores, B. M. Quakro, J. H. Waddy, and J. Younger.

WILL BE MET.

In connection with the above report it was suggested that the Committee on Banks, Currency, and Insurance be divided into two committees—viz., a Committee on Banks and Currency and a Committee on Insurance; also, that a sub-committee on Postal and Telegraph Service be appointed to consider the Postal Service; further, that all standing committees shall meet to consider matters referred to them as promptly as practicable, and shall also have regular meetings for the purpose of originating business at least once a quarter.

The report and the additional suggestions mentioned, after being discussed by Messrs. B. W. Wood, Gustavus Milhiser, S. Dalmay Crenshaw, Thomas Christian, E. D. Starke, A. R. Guigon, and others, was considered as a whole and adopted. The appointment of the special committee was referred to the Board of Directors, some of the questions to which they relate, as for instance the matter of Inspector of Buildings having assumed a different shape since the preparation of the report.

SITE FOR THE NEW BUILDING.

The State then laid before the board the following resolution, prepared by Hon. George L. Christian at the request of the Building Committee, to authorize the execution of necessary papers in connection with the purchase of the site for the Chamber of Commerce building, which resolution was unanimously adopted:

Whereas the Chamber has contracted to purchase two lots at the southwest corner of Main and Ninth streets—one from Mrs. Hannah W. Petty and one from Mrs. L. M. Petty, and another lot adjoining these on the west side, and whereas it is necessary to execute notes for and deeds of trust to secure the purchase of the property, and to do such other acts as may be necessary and proper to consummate said purchase, the Chamber is authorized to execute the same; therefore be it

CHICAGO, Ill., November 26.—A special from Fort Sully, S. D., says: It is evident from developments of the last twenty-four hours that hostile Indians from Grand-River, Cheyenne, Rosebud, and Pine-Ridge Agencies are massing at some point for a stand against the troops under General Brooke. From squaw-men just in from the Ziaebel country it is learned that bands of red men in war paint have been passing through Fort Sully for several days, moving southward. They were well armed with Winchester rifles, had plenty of ammunition, and were well equipped with ponies. They were uniformly insolent and defiant. The squaw-men of Indian origin were passing south by the Indian Agency. South by the hostiles and are running away from their Indian companions and giving up the secrets of the Sioux. They have been excluded from all the ghost-dances and are the subjects of special hatred.

COMPANION POINTS OUT THE DIFFERENCE.

We have thought sometimes we ought to make a business of exploiting some of the fallacies put forth by tailors. Then again we came to the conclusion we had our hands full to attend to our own affairs. We offer you—in our resources—your relief—and we keep by keeping up our end of the line to the standard we've reared for it—you'll not have to think twice before you'll see the difference.

— Doesn't it stand to reason that the profit on each has got to be greater for the man who sells maybe two or three suits a day—to order—than to us who sell STRAIGHT—TWO OR THREE HUNDRED—CUT AND THE DOUBLE OF IT? There are no philanthropists in business. The mighty dollar is what we are all working for, but we are modest enough not to want the whole of it of you.

— The tailor who claims that he will give you greater satisfaction with his tape and time than we can READY-MADE is either willfully deceiving you or wofully ignorant of the quality of OUR CLOTHING. It can hardly be the latter—for they are all of them wincing under the stampeade of public favor toward our handiwork. When they come to charge you from \$10 to \$35 more for a suit than we do, you've a right to look for some extraordinary points of excellence. But they don't materialize—CANNOT—And then the saving you'll make with us for absolutely the same amount of satisfaction assumes its true proportions, and **WE'RE YOUR CLOTHESFASTERIES!**

— Now the finest suit in our house is only \$65—not yet the tailors will charge you \$70—and more—to get up the same. We make all our suits fine. Even the \$10 suits which are the cheapest—are FINE FORTY DOLLARS. We see in every garment we sell you the texture of your patronage; and do you suppose we're going to let any "weak-kneed" qualities get into your hands? NEVER A ONE.

As a Thanksgiving courtesy we give you from now until we close our doors to-night the choice of any Cassimere Suit in our house marked, less than

NEW YORK STOCK MARKET.	
NEW YORK, November 25.—The stock market to-day was less active than yesterday, but no one expected any activity at all, the little that was shown during the latter portion of the day was unwelcome of a surprise, as was also unwelcome the strength displayed in all parts of the list, as the general impression has been that a declining tendency could prevail. The bulls, however, were calculating upon Gould's return toward movement. There was no fresh waiting for that, however, as the reports of the day sufficiently proved, and his depression again marked the early salings, the final gains are large in some cases, and in a few stocks there is a decline whatever.	
THE EARLY RAID.	
The dullness and heaviness of the opening were in part due to a continuance of the reaction of yesterday and in part to the selling of foreigners on disquieting news from South America, but the London market showed no weakness, and the American stock market was under the first half hour, and the foreigners suddenly changed front, becoming liberal buyers where they had been sellers in the early trading. The rail was accounted for by the fact that there was a fatal disagreement among the sugar trustees and that some of the assets were unavailable, and the bears paid particular attention to sugar, forcing it off from 51 to 48. Pacific Mail yielded 1 1/2, Northern Pacific preferred 1 per cent., and other leading stocks were down.	
AT THE CONCESSIONS, HOWEVER, BUYING	
orders appeared in the market, the course of prices was soon changed, and the early losses in the general list were quickly made up, with fractions in addition. Union Pacific, St. Paul, and Rock Island led in this movement, with a gain of 1 1/2 to 4 per cent. were scored. The improvement in the whole list, however, received a great impetus in the last hour by the announcement that Judge Culpin, in Brooklyn, had issued an injunction against the stock market under the order of the late judgment until the hearing to be held next Saturday. Upon this sugar, which had recovered a portion of its loss, made a sudden jump to 56—a gain of 8 points from the lowest point of the morning's trading. The movement in the sugar which had appeared in the market upon early realizations.	
AT THE CLOSE ACTIVE AND STRONG.	
Lackawanna led in this reaction and obtained 1 1/2 per cent., but in the final dealings everything jumped, and the last prices are generally at or near the best of the day, the close being active and strong. The closing trading yesterday, however, brokers are compelled to restrict the trading of their customers on account of the scarcity of time-money, there being none yet offered by any of the New York institutions. Final changes for the day are almost all in the direction of higher prices, and among the most important gains sugar is up 3 1/2; Rock Island, 3 1/2; Jersey Central, 2 1/2; Union Pacific, 2 1/2; St. Paul, 2 1/2; Louisville and Nashville, 1 1/2; Burlington, 1 1/2; Missouri Pacific, 1 1/2; Southern Pacific, 1 1/2, and Northwestern 1 per cent. Sales, listed, 245,000 shares; unlisted, 57,000.	
CLEARING THE RESERVATION.	
OMAHA, NEB., November 26.—A special to the <i>Age</i> from Pine Ridge says an order was issued this morning postponing the beef issue until to-morrow and ordering all strangers except newspaper correspondents off the reservation. There are about 6,000 Indians swarming and about the agency. One hundred more Indian agents are being sworn in and armed for service.
